

The **ScanIt Parts Physical Inventory** software streamlines your physical inventory process. You can scan your inventory instead of counting, make any necessary adjustments or corrections during the inventory process, and upload your current quantities.

Physical Inventory

- ★ No more keypunching or sheets of paper
- ★ Check your variances during inventory at any time
- ★ Accurate – the scanner does the counting for you
- ★ Upload your counts per bin location (as an option)
- ★ 15 different reports to choose from
- ★ Rent additional scanners

Accurate, Fast, Done!
